David P. Manfredi FAIA, LEED AP

CEO and Founding Principal
Elkus Manfredi Architects

David Manfredi works with clients across the country on a diverse portfolio of planning and design projects. David's mission is to create common ground that brings people and communities together. He reinvents underutilized urban precincts into 21st-century mixed-use environments, the edges of universities from barriers into connective seams with adjacent neighborhoods, and under-performing urban areas into diverse innovation districts that support the collaborative imperatives of today's science and technology. Elkus Manfredi Architects has designed many buildings in the Fenway including Triangle Trilogy, 1330 Boylston Street, the Van Ness, the renovation of 401 Park Drive, 201 Brookline, and 421 Park Drive, and most recently the Lyrik at 1001 Boylston Street in the Back Bay. David is especially proud of the influence the firm has had on the public realm at the 401 Park Green and the new park at 1001 Boylston. He serves on the Boston Civic Design Commission, the Board of Boston Architectural College, the University of Notre Dame School of Architecture Advisory Council, and the ULI Boston Advisory Board.
